Collaborate with colleagues who value pragmatism in design and development.
Invest in new technologies to solve problems in more creative or efficient ways.
Foster an inclusive working environment that rewards contribution.

EDUCATION

FEB 2010 – NOV 2016

B. IT (SOFTWARE TECHNOLOGY) | MACQUARIE UNIVERSITY

FEB 2018 – (EXPECTED COMPLETION) NOV 2021

B. ARTS (PHILOSOPHY & LINGUISTICS) | MACQUARIE UNIVERSITY

EXPERIENCE

MAR 2019 – JUN 2019 | KATHMANDU, NEPAL

ICT OFFICER (AUSTRALIAN VOLUNTEER) | KIRTPUR MUNICIPALITY

- **Full-stack web developer** designing and building software solutions for the municipality in their service of community needs.
- **Project manager** for implementing community-wide information technology infrastructure projects, including digital public library services and local business engagement initiatives.
- **Volunteer for international development** as part of the Australian Volunteers Program, funded by the Australian Government. Required rigorous adjustment to the environmental effects of being a software engineer in the field—including language skills, cultural sensitivities, working with limited access to resources, lack of infrastructure, etc.

JUL 2018 – MAR 2019 | SYDNEY, AUSTRALIA

DEVELOPER | AUSTRALIAN BROADCASTING CORPORATION

- **Front-end developer** within the iView web and connected TV engineering team, leveraging React.js to bring the ABC's video-on-demand service to a universal audience with support for assistive technologies and broad device compatibilities.
- **Product engineer** working in an agile framework, promoting the well-considered application of technology to enhance user experiences.

APR 2017 – JUN 2018 | SYDNEY, AUSTRALIA

FULL-STACK DEVELOPER | SPECIAL BROADCASTING SERVICE

- **Front-end developer** 'The Feed' site relaunch
- **Front-end developer** Data Layer analytics implementation across SBS Network of websites
- **Drupal developer** Module design and implementation
- **Drupal Developer** Enterprise multi-site Drupal across SBS Network of websites

MAR 2016 – AUG 2016 | SYDNEY, AUSTRALIA

SENIOR WEB DEVELOPER | MARCEL SYDNEY

- **Front-end lead** Cloud-hosted Drupal CMS implementation for QLD Government department website rebuild.
- **Front-end lead** Micro-sites for various FMCG products

SEP 2010 – SEP 2015 | SYDNEY, AUSTRALIA

FULL-STACK DEVELOPER | WARD6 AUSTRALIA

- **Front-end lead** iOS-based product detailer, standardising Node.js compilation, versioning and deployment processes.
- **Lead developer** web-based reporting and invoicing system for the specialised education of GPs in the field of diabetes. Built using OOP PHP, extending an existing MVC system.
- **Lead developer** web-based register of Australian healthcare professionals eligible to prescribe or dispense a controlled medication. Includes e-learning, complex certification reporting and emphasis on data security. Built using MVC PHP.
- **Lead developer** e-learning platform used by Australian and NZ healthcare professionals in the field of diabetes. Built using MVC PHP. Awarded PRIME in the category of Education, 2014.
- **Developer** JavaScript libraries for iOS-based product detailer, providing sessions-based data storage and PBS prescription cost calculations. Awarded Effie in the category of Healthcare, 2013.

OCT 2008 – JUL 2010 | SYDNEY, AUSTRALIA

WEB DESIGN & DEVELOPER | FULFILNET

- **Designer / developer** micro-sites using jQuery and CSS2.1
- **Testing / QA** cross-platform website & eDM compatibility
- **Designer / copywriter** digital and print collateral
